

Volunteer Information Form

Committee:

- Small Systems

Meeting information (How often, Conference call or in-person):

- 4 meetings/year (usually virtual)

Duties/Roles/Responsibilities and Desired Qualifications of Volunteers on your Committee:

- What we Do:
 - The Small Systems Committee provides information to managers and operators of small systems to help them deal with water supply, treatment issues, and regulations. This includes systems regulated under O. Reg. 319, O. Reg. 170 and First Nations.
- Some of the activities of the Committee:
 - Would like volunteers to assist with any aspect of “What we Do.”
 - Assist with providing up-to-date information using the Small Systems Members Area on the OWWA website.
 - Assist with development of educational Small Systems videos to be added to the OWWA website.
 - Assist with development/facilitation of webinars consisting of 3-4 topics containing practical advice for operators of small systems, e.g., Would like to organize a webinar that addresses small systems and current pandemic conditions.
 - Develop relationships with other OWWA committees that support small systems.
- Who should join this committee:
 - All Ontario water professionals with expertise and experience specific to the committee’s focus areas.
 - We especially encourage operators or managers from small systems to become a part of the growth and direction of this committee
